Invitation to Agrinet Trade Show, 3-5 August 2010

This year Agrinet will be hosting its first trade show in Samrand. This will replace the previous autumn and spring expos and will take place once a year.

The trade show will take place over three days and contrary to the usual expo programme, visitors will be able to view exhibitions for the full course of the show – typical to an industry trade show. Doors open at 09:00 daily and close again at 18:00. The complete list of Agrinet suppliers is invited to introduce new products, technology and trade marks during the trade show. More than 80 exhibitions are expected, and various international suppliers will support the show as well.

We expect the show to be of great value for all purchasers, product managers, branch managers and even floor personnel, considering our broad ranges and the excellent representation thereof in various agricultural outlets. The show will provide an essential opportunity for everyone involved to be informed and up to date with the development of new ranges.

Throughout the show there will be formal presentations to facilitate product and technical introductions, as well as training and product support. Focus on irrigation will kick off the presentations on Wednesday 4 August.

A more complete programme, including the list of participating suppliers, will be issued shortly.

Be sure to register before 23 July 2010 to be part of the first annual Agrinet trade show. Please use the attached registration form, to be completed and sent to us before July, 23rd to Elouise Strydom, elouises@agrinet.co.za or by fax to 086 529 4430.

Regards

Brand Theunissen
Managing Director
